About Me

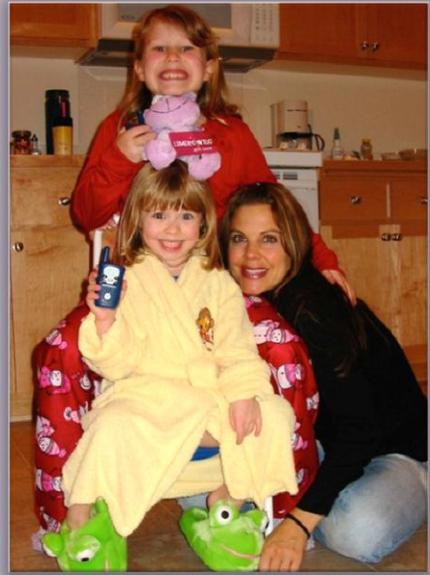

I grew up in a very loving family. My parents have been married over 45 years and live on a big farm. I have an older brother and a younger sister. I was adopted as a baby and was blessed with a wonderful loving adopted family. I have contact with my birthmother and feel fortunate that we were able to meet and spend some wonderful times together.

I have a large family, which is fun, especially around the holidays and on special occasions like birthdays. We enjoy getting together and having big bar-b-ques for the 4th of July. During Christmas, we spend time at our winter home in the mountains. As a family, we like to snowboard, ski and just play in the snow. I have been “Aunt Tracy” for over 20 years and love every minute of it. I can’t wait for my four nieces to meet my baby, their newest cousin. I have a Godson named River to whom I am also very close. My family is very supportive of adoption and excited to welcome a new baby into our family.

My Hobbies

I love to travel, especially outside of the United States. I have traveled to Paris, London, Amsterdam, Dominican Republic, and Costa Rica. I enjoy learning from other cultures as well and trying the wonderful foods from around the world. London has the best waffles I have ever tasted! And to see the Eiffel Tower in Paris was amazing! At night, the tower is lit up with bright lights.

When I am not traveling, I love going to sporting events, museums, plays, and concerts at the park with family and friends. If I want some quiet time, I enjoy relaxing at my home with Atticus, my dog, or going to a movie.

I am very active. I enjoy running, yoga and playing sports. I love to dance! I was an international gymnast when I was young and I still enjoy making up routines. I like ballet, jazz, tap, modern, but my favorite is hip hop.

My Values

Education is important to me. I have a bachelor's degree in public relations as well as in nursing. I also have my real estate license and aesthetician license. I have always enjoyed learning a variety of things. I have combined my nursing and aesthetics into a wonderful career that is flexible. I live a comfortable life because of good education and sacrifices my parents made to send me to college. I value good, godly character, which is doing the right thing and treating others the right way. I value diversity and feel lucky to work with such a wonderful group of people.

I love working as a nurse!

My Home and Neighborhood

I live in a simple, but modern home in a diverse, safe community in Colorado. It is surrounded by golf courses, parks, and a view of the mountains! There are lots of squirrels and bunnies outside my home that are always fun to watch. My community has a very good school system.

I have a one-year old Chihuahua/Pug mix named Atticus. He is spoiled and loves to play with children and other dogs. If he could speak, he would tell you that his favorite place to travel to is New York in the summertime. He is quiet on the plane, but as soon as the plane lands, he wants to strut through the airport saying hello to everyone.
